Subject: One day Camp for sensitizing students towards Voting Process

As per directions of the Election Department focus is to be laid on sensitization of young voters specially female in the state this time, about the importance and various aspects of voting process.

The colleges of the state have large numbers of young voters, so it has been decided to appoint Nodal Officers and Ambassadors in colleges who would take care of spreading awareness and sensitize the students about importance of election and explain various aspects of voting process. To comply with the same, kindly organize a one day awareness camp in your college under the NSS or YDC scheme.

This program should be conducted between 15th October to 15th November for optimum benefit. Colleges are expected to organize this event on their own initiative, and if required, help and assistance may be sought from the Election Department. You could also contact your district administration for successful implementation of this program.
