

Directorate of College Education Rajasthan, Jaipur

No.: 74

Date: 14/5/2012

All Principals,
Private Colleges,
Rajasthan

Subject: Regarding IT enablement and IT Integration of private colleges with Directorate of College Education, Jaipur.

It comes as a good news to educators that keeping pace with time National e-Governance Plan (NeGP), NME-ICT and State e-Governance vision, Directorate of Education endeavors to take various e-Governance (IT) initiatives to be taken in Higher Education through genuine efforts:

It is mandatory to bring dynamism to college education and also to improve quality performance which could be possible through implementation of the Web-site at the earliest.

To change and improve the existing scenario of College Education in Rajasthan following steps are required to be initiated at the earliest at college level:

1. **Every college must have it's own website** and give it a dynamic pattern to make it interactive. The informations required by the students, faculty, Public and in some cases by Government is to be made available on their web sites.
2. The website should also shares the daily academic and extra-curricular activities of the colleges for greater transparency and reach among the stakeholders.
3. It is also advisable to put a special link on their college web about the biodata, research and the academic activities done by the faculty.
4. To increase the efficiency of the correspondence and to maintain the security, a secured web mail application should be developed within the websites of colleges. Every staff member should be given an official webmail address to interact within the college as well as with the directorate or other government agencies. The use of the private mail should be discouraged to share official information.
5. The colleges which have large numbers of applicants for admission in UG/PG and specialized courses are further advised to take their admission online from next academic session.
6. The information regarding infra structure like Land, Building, classroom, laboratories, library, playgrounds and other facilities etc. are to be made available on the college website of the colleges.
7. The name of the nodal officer of website should be displayed on the home page of the website with the contact numbers and email address. It is also incumbent upon the private college that they must mention their website address, before applying for permanent NOC.
